HUB RADIATOR ELEGANCE

Furnishing for platforms HUB RADIATOR

HUB RADIATOR ELEGANCE in the collections DOOR and DRYER

Our HUB RADIATOR in a "DOOR".

This is the summary of the idea from which the project DOOR born, designed in collaboration with our study of interior / design. The essence of the project is summarized in order to realize a dedicated space to cover the technology inside the HUB RADIATOR. To cover this space, the A2B Accorroni E. G. provides a frame of a simple design and easy to install complete with a door of various materials:

- Height 240 cm, equal for all models

- Width 80 cm, model HR ACS

- Width 80 cm, model HR FULL

In the images below, the various types of doors are shown:

DOOR MDF DIGITAL, DOOR CLASSIC XO, DOOR XO.

In the solution described above, HUB RADIATOR is integrated within a particular cabinet, white color, to be positioned in combination with the washing machine and it consists of a cover tank compartment made in waterproof material, a dryer compartment with fan, aeraulic ducts, and a collecting basin water.

Are also provided furnishings A, B and C for laundry, by arrangement your pleasure
